STANDARD AED PACKAGE

3. Defibtech Adult & Pediatric Defibrillation Pads

5. Defibtech Data Card

4. Defibtech AED Battery Pack & 9V Lithium Battery

6. Fast Response Kit

1. Defibtech Reviver AED

2. Defibtech AED Soft Carrying Case

1. DEFIBTECH LIFELINE AED

Compact, easy-to-use AED with clear voice prompts & indicator lights designed for ease of use during a sudden cardiac emergency. The Defibtech Lifeline is available in semi-automatic & fully automatic versions. Fully automatic version is not recommended by VHTS.

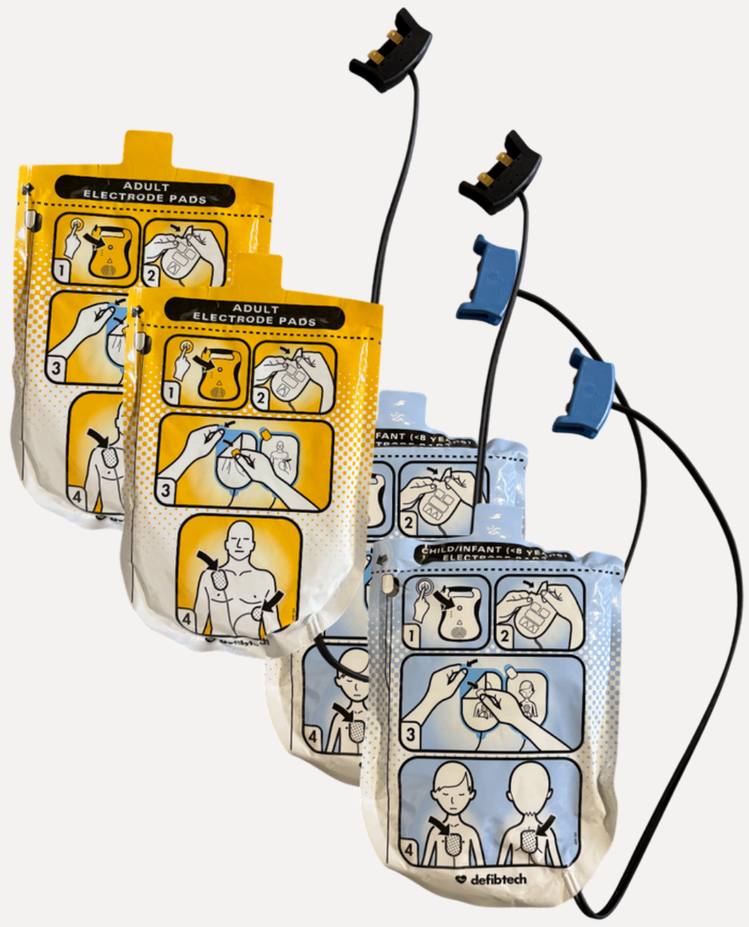

2. DEFIBTECH AED SOFT CARRYING CASE

Lightweight protective case for safely transporting and storing your AED.

Orange Black

3. DEFIBTECH ADULT & PEDIATRIC DEFIBRILLATION PADS

The standard package comes with 1 set of adult pads preinstalled in your AED unit. This allows for quick and easy access in the event of an emergency! A spare set of adult pads is the recommended industry standard. Pediatric pads are also available and intended to be used on children 8-years or younger. All pads come with at least a 2-year expiration.

4. DEFIBTECH LIFELINE 5-YEAR BATTERY PACK (WITH 9V)

Long-life battery pack designed to keep your AED rescue ready. 9V battery is used to power your AED unit's internal monitoring system & flashing indicator light blinking. It's encouraged the 9V battery be replaced annually.

5. DEFIBTECH DATA CARD

Removable memory card that records and stores AED rescue event data. This is essential for compliance/reporting in states where required.

6. FAST RESPONSE KIT

Emergency accessory kit with essential items needed during an AED rescue. This includes: A pocket-face-mask for delivering rescue breaths, shears for removing clothing, a razor if chest hair needs to be removed, a towel to dry the chest if needed, gloves for personal protection & a red biohazard bag for safe clean up post emergency.

AED STORAGE

CABINETS & ACCESSORIES

1. INDOOR WALL-MOUNTED CABINET

A secure wall cabinet designed to store and protect your AED while keeping it visible and easily accessible in an emergency. Available with optional alarms to alert when the cabinet is opened.
Comes with mounting screws and AED mounted sign.

2. AED OUTDOOR WALL-MOUNT CABINET (INCLUDES ALARM)

A weather-resistant cabinet designed for outdoor use to protect your AED while keeping it visible and accessible in emergencies. Features a built-in alarm that sounds when opened to deter tampering and alert others. Not reccomended for extream weather climate.
Includes mounting hardware and AED sign.

3. NARCAN MINI CABINET

A compact, wall-mounted cabinet designed to securely store Narcan for quick access in an emergency. Keeps the kit visible and easily reachable while protecting it from tampering. Includes mounting hardware and clear identification signage.

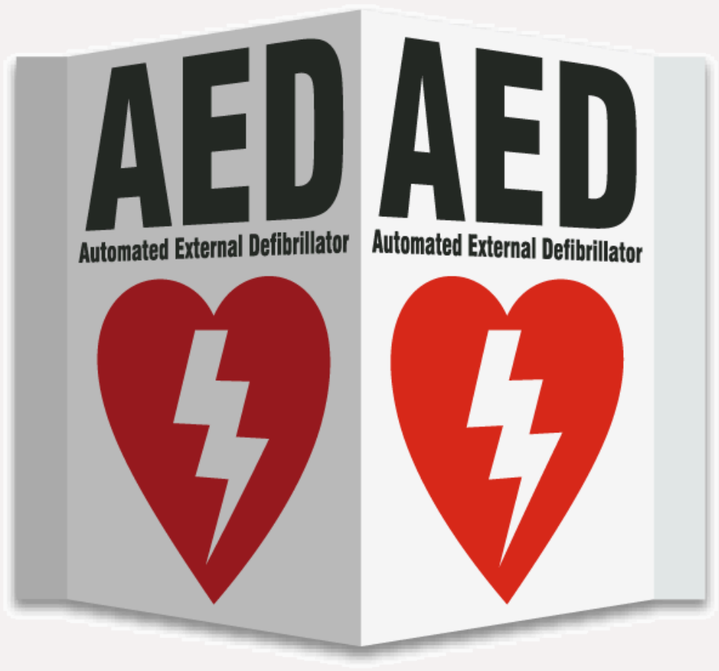

4. WALL-MOUNTED AED BRACKET

A sturdy and reliable bracket designed to securely hold your AED on any wall for quick and easy access in an emergency. Keeps the device visible and ready for use, while allowing fast removal when needed. Compatible with most AED models and simple to install.

5. AED LOCATION & DIRECTIONAL SIGNAGE

Clear, highly visible signs designed to guide people quickly to your AED in an emergency. Available in left & right facing arrows to mount to the walls, ensuring your AED is easy to locate when seconds count.

6. AED V-SHAPED WALL SIGN

Highly visible and easy to spot from multiple angles, this V-shaped AED sign projects outward from the wall to clearly mark your device location. Designed to guide people quickly in an emergency, it enhances visibility in hallways and large spaces so your AED can be found fast when every second counts.

AED STORAGE PORTABLE

1. AED HARD CARRING CASE

Rugged protective case designed to safely transport and store your AED in demanding environments, IP67 Rating. Provides added durability and protection against impacts, dust, and moisture.

Yellow Black

2. DEFIBTECH AED SOFT CARRYING CASE

Lightweight protective case for safely transporting and storing your AED.

Orange Black

ADDITIONAL OPTIONS & ASSESORIES

DEFIBTECH LIFELINE AED TRAINER

A **training** device designed to simulate real AED operation, allowing users to practice proper emergency response and pad placement. Ideal for CPR/AED training classes, it provides realistic prompts without delivering a shock.
This unit also includes battery charger and remote control.

DEFIBTECH LIFELINE VIEW AED

An advanced AED featuring a full-color interactive display that provides step-by-step video and voice instructions during a rescue. The Lifeline VIEW helps both trained and untrained responders perform life-saving defibrillation with confidence.
Pads come with a 2-year expiration & batteries with a 4-year expiration on VIEW units.

DEFIBTECH ARM XR

The DEFIBTECH ARM-XR delivers consistent, high-quality CPR with automated chest compressions, reducing rescuer fatigue and improving patient outcomes. Lightweight and portable, it features an integrated frame, adjustable compression settings, and long battery life—perfect for EMS, fire, and advanced life support teams.

It keeps compressions steady from the field to the hospital, helping your team focus on lifesaving care.

Comes with ARM XR Case & Battery charger.

ABSORB-IT PRODUCTS

Absorb-It makes cleanup fast, easy, and odor-free.

- Biohazard & Bodily Fluids: Vomit, urine, diarrhea, and blood instantly turn into a scented gel for quick, mess-free cleanup. Absorbs odors and liquids for a sanitary solution.
- Odor Control: Available in Very Berry and Lavender scents. Neutralizes even the strongest airborne odors, leaving spaces smelling fresh.
- BioMint: Deodorizing granuals used to control and eliminate unpleasant odors in large recepticals such as dumpster/trash storage areas.

Perfect for facilities, emergency response, and maintenance crews, Absorb-It products make spills and odors a thing of the past.

ABSORB-IT

FAST RESPONSE KIT

An all-in-one emergency kit designed for rapid intervention in medical emergencies. Includes essential supplies such as gloves, CPR mask, bandages, antiseptic wipes, and more to help stabilize patients until professional care arrives. Compact and portable, perfect for workplaces, schools, or vehicles to ensure you’re always ready to respond quickly and effectively.

EPIPEN® AUTO-INJECTOR

A life-saving device for individuals at risk of severe allergic reactions (anaphylaxis). The EpiPen delivers a quick, precise dose of epinephrine to reverse symptoms and buy critical time until medical help arrives. Easy to use with clear instructions, compact for convenient carrying, and trusted by millions worldwide for emergency allergy treatment.

AED INSPECTIONS IN-PERSON & VIRTUAL

ROUTINE INSPECTIONS TO ENSURE AED UNITS, BATERIES, PADS & ACCESSORIES ARE FUNCTIONAL, NOT EXPIRED, AND READY FOR USE

We offer in person and virtual inspections on all units.
We can notify you on and replace:

- Expiring installed and spare pads
- Expiring main unit battery and replacement of 9V battery
- Replacement of older units that have an expired warranty
- Stay compliant with state regulations and feel confident with our in person or remote inspection services

We track your Serial numbers and all expiries so you don't have to

Stay compliant and confident with our remote AED inspection service.

Designed to keep your life-saving equipment ready without disrupting your schedule.

MEDICAL DIRECTION PAPERWORK

STAY STATE COMPLIANT

Our medical direction service provides physician oversight for your AED program, ensuring compliance with local and state regulations. Documentation includes program authorization, clinical guidance, and protocols to support proper placement, maintenance, and use of AED devices.

In the event of device usage, we also manage Department of Health (DOH) reporting where required, giving you peace of mind and full regulatory compliance.
